

English

Before you start your English activities, play the following song, this gets us ready for our learning.

<https://www.youtube.com/watch?v=saF3-fOXWAY> use the alphabet card from your home pack.

The Queen's Hat

This is our class story. I am sure the children will love sharing their knowledge of the book with you at home. The link below shows the book and someone reading it aloud which is a little different from the words in the book. You could start by turning the sound down and asking your child to 'read' the book to you. They have learnt some of the words very well! Then, turn the volume up and listen to the story. The video also reminds us of the land marks in London which have interested us very much.

<https://vimeo.com/246100372>

Questions to ask : What happened at the beginning of the story? What happened at the end of the story?

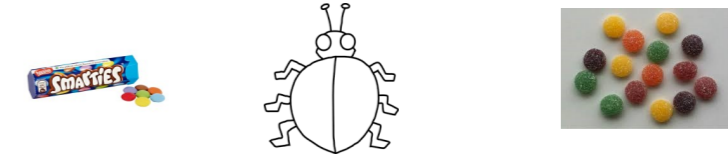

Which is your favourite part of the story? Why?

Maths

In class, we always play a number song before maths so children know their number learning is about to start. We always try and 'grow' our fingers when we sing this song. Use the number line from your home pack.

Number to 10 song <https://www.youtube.com/watch?v=dk9Yt1PqQiw>

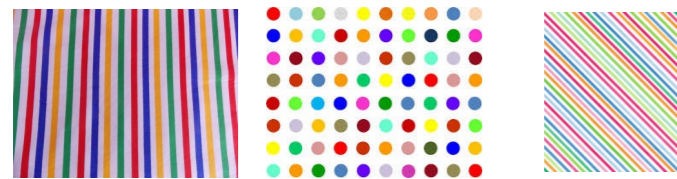

Ladybird Activity: You will need : A ladybird picture and 5 to 10 small objects . These could be pen tops, pieces of play dough, sweets.

Print off the attached ladybird picture or draw a ladybird. Ask your child to place 5 spots (your objects) anywhere on the ladybird. Now, check you have 5 by counting carefully (line the objects up). Repeat the activity with 6,7,8,9 then 10 objects. Place them on the ladybird and line them up to check 'how many?' each time.

Touch each object as you count.

Challenge : 10 spots Fold the ladybird in half. Draw spots (up to 10) on one half. Now, you need to remember how many you have drawn so **put the number in your head** and complete the other half of the ladybird. Now check you have 10 spots!

Art Activity of the Week

Design a hat

Use the attached template or draw a hat shape.

Hello!

As promised, here are your Week One learning ideas. Each week, I will send you a new set of activities.

This will be a new challenge for your children but I have used songs and a story they know well to support you.

If you need any further support or if you have any questions please ring school and I will help you where I can.

Please use the activity prompt cards to prepare your child for play and work if you need them.

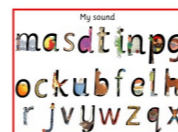

Thank you,

Michelle

Phonics

We have been working really hard to remember how to say each letter sound correctly. This helps when we break a word up to read it,

The following video will help to remember how to say each sound.

We use the words 'bouncy' and 'stretchy' when describing these sounds.

The little girl in the video is not from our area and the way she says 'o' and 'u' is different to how we say it !

Craft Activity

Home Made Playdough

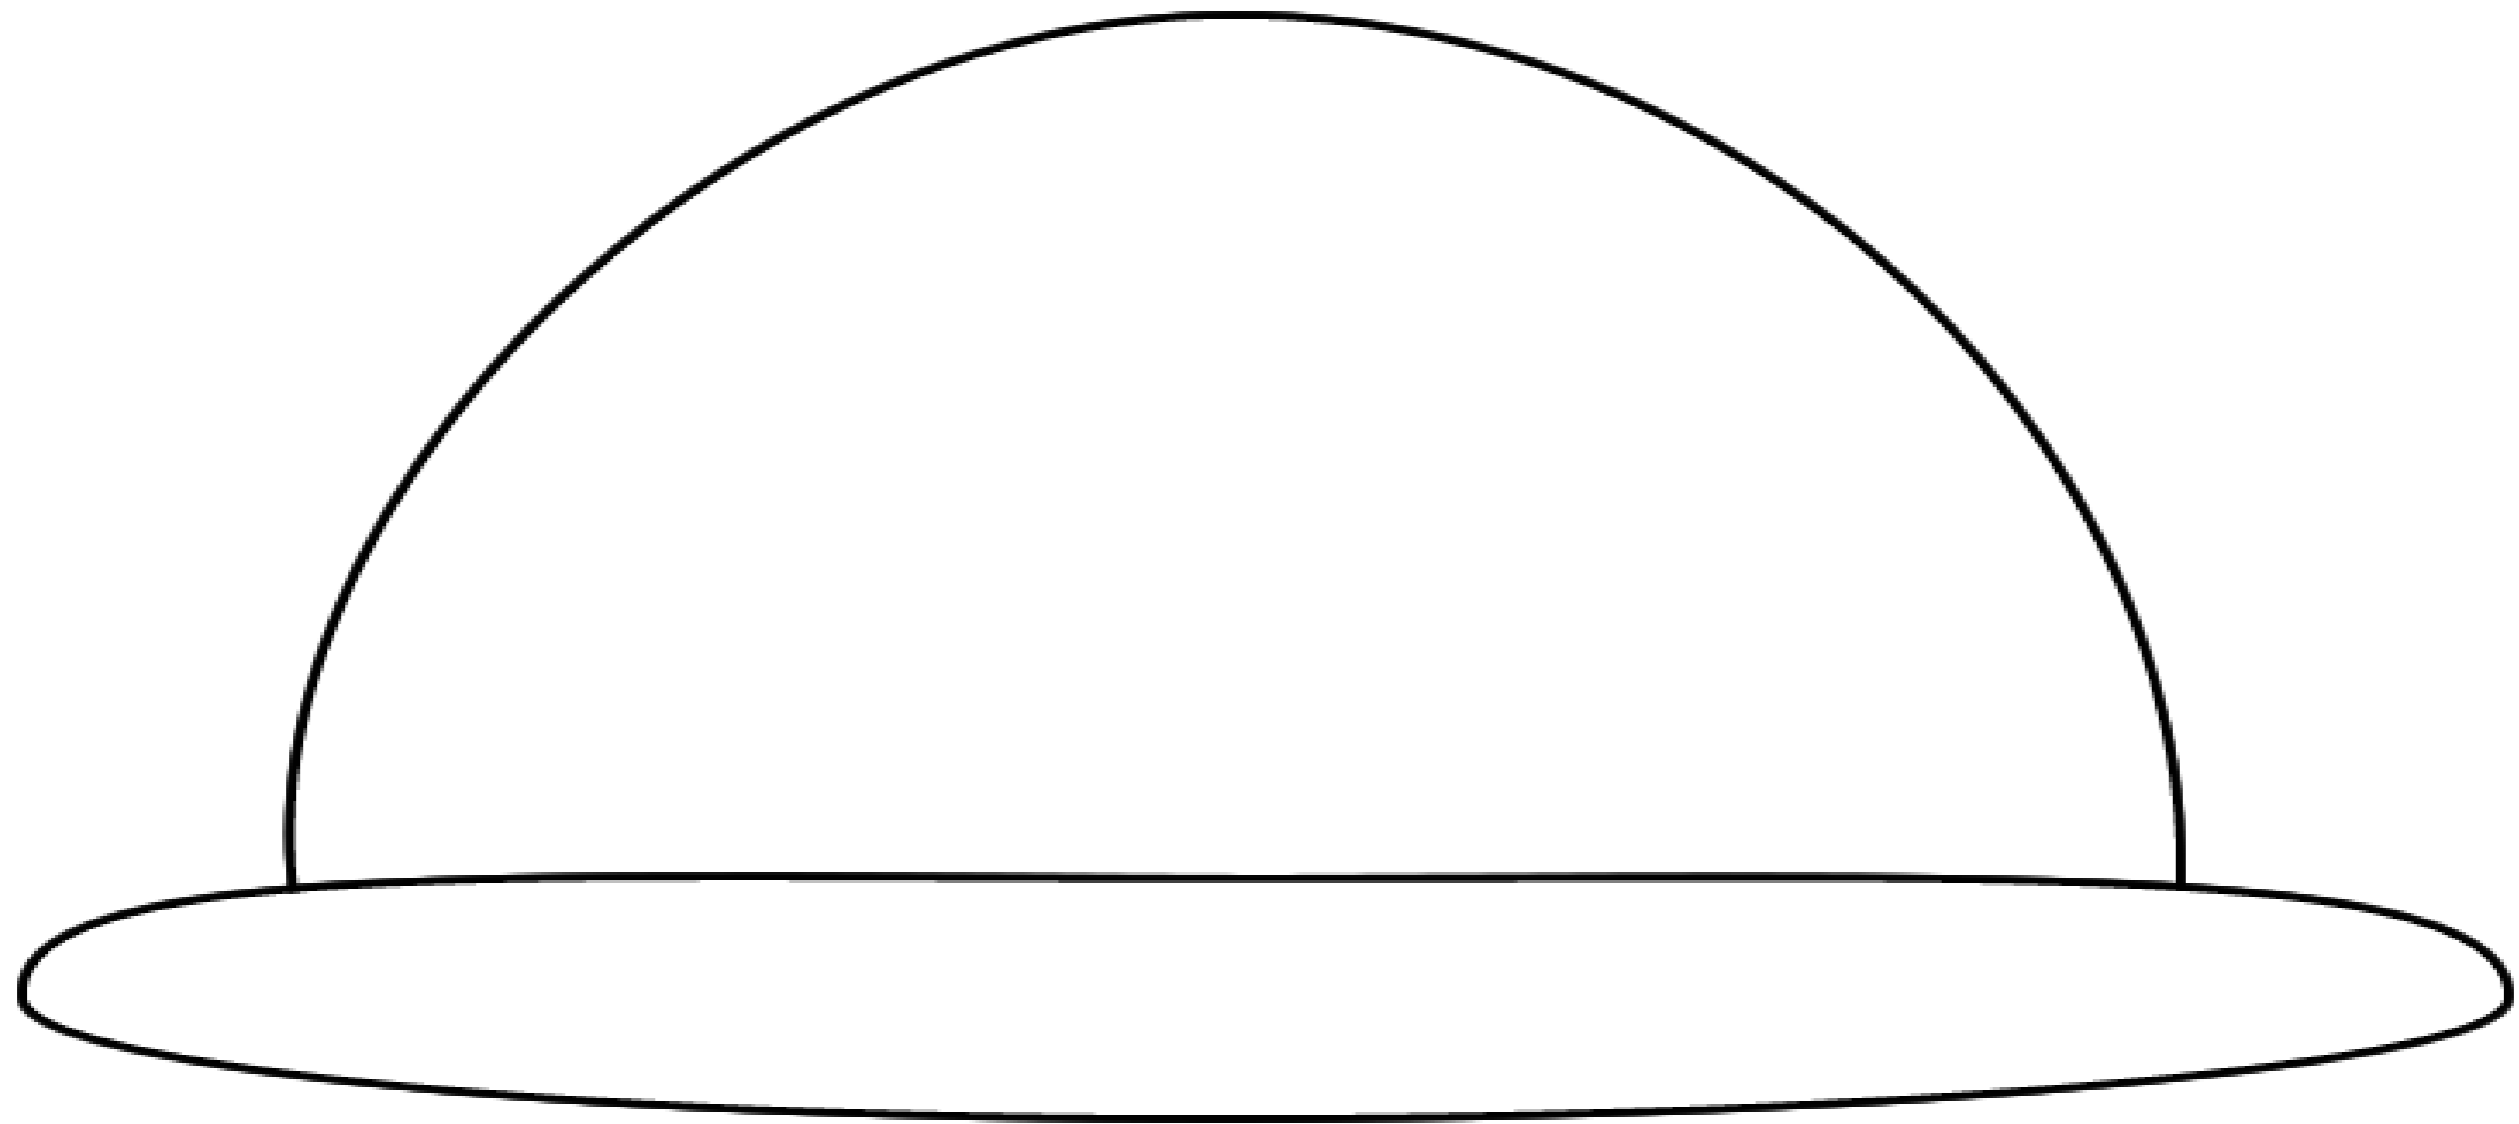

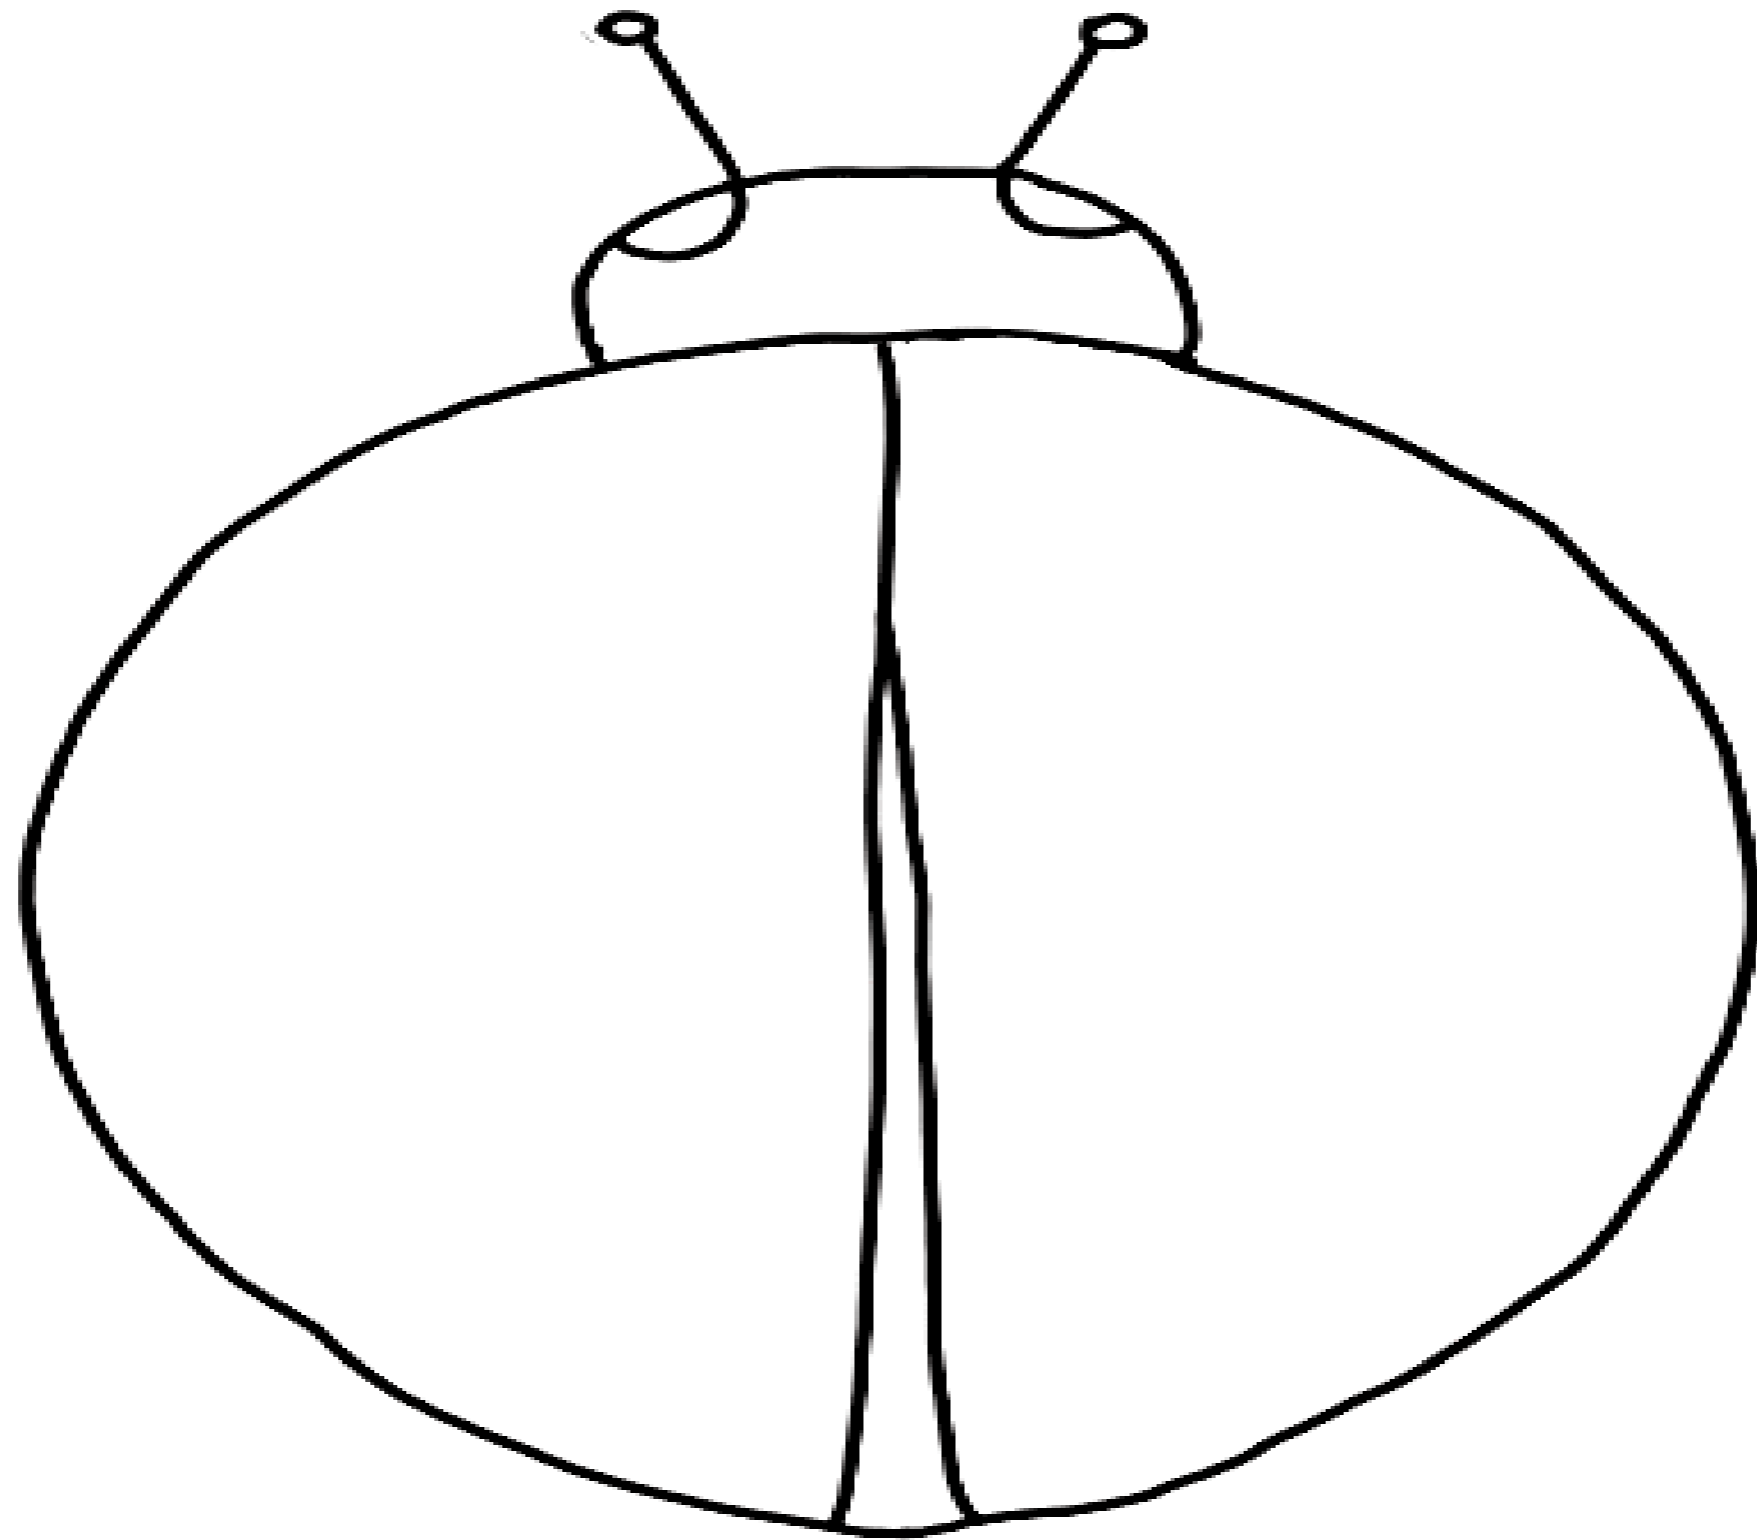

Home made play dough is easy to make

There is a fantastic basic recipe on the BBC website below:

<https://www.bbcgoodfood.com/howto/guide/playdough-recipe>

You can use play dough to hide objects in, this helps with fine motor skills. Try hiding coins in and then naming each one.
