

# Chris's Class Newsletter

– Spring 1 2022

After a busy first term and an even busier festive period we are back for a new Spring Term. During the spring term we will look at our new topic People Who Help Us with a specific focus on growing and healthy eating, looking at a range of people in the community who provide us with support and care when we need it, such as the emergency services.

There are many celebrations over the next few weeks as we will be exploring Chinese New Year and of course preparing for Valentine's Day! We will hopefully be able to visit some of our local area attractions such as Redcar, Stewart Park and maybe even a visit to a supermarket!

**Teacher: Chris**  
**Learning Support: Terri, Tyler**  
**Care Assistant: Tanya**

## This term we will Reading: **Burglar Bill and The Smartest Giant in Town**

We will be learning about the people around us who help us. We will also be exploring the wonderful changes that the spring term brings us, exploring the weather and the season.

We will also be working on our maths skills in a way appropriate for each individual learner.

## Informal Curriculum

We will be learning through a mix of therapeutic curriculum and sensory experiences, alongside appropriate social and academic based activities individualised for each pupil. We have been exploring a range of sensory activities and have been exploring a range of vegetables and fruits, some have been successful while others have not been!

For some sessions this term we will be visiting the Soft play Room and Sensory Room at Pennyman Academy. Please keep an eye out for this in your Home/School Communication Books.

## Home/school communication books

All children have been given new home/school books to take home so we can communicate about your child's school day and pass on any important information. Please also write in the books and let us know how they have been at home too so we can ensure continuity throughout their day. Thank you for including the home /school book in your child's bag every day.

We will also send you important messages and photographs about your child's learning via Showbie. Please make sure you are signed up for Showbie. You can download the app on your phone/tablet. Please contact the office on 01642 248333 if you need your login details re-issuing again.
