

## Key Stage Careers 2023-24

Key Stage 3 have begun the 2023-24 Academic Year with a series of projects aimed at Preparation for Adulthood. We have built upon our previous experience of Power of Women and will be electing new ambassadors in the coming days!

We have also spent time working on the My Voice Matters project, where we will not only be instrumental in shaping an event for all special schools in the area but we will also be looking at how we can begin to shape our own Academy and beyond, initially looking at our own website and what we can do to improve it and give the students a voice within it.
