

Zahida's Class Newsletter

Summer Year1/2

Welcome Back

It is lovely to see all the children back in school and settling in to school life.

We are looking forward to doing a lot more outdoor learning as the weather starts to get brighter.

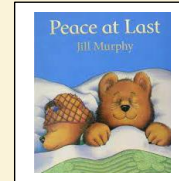

We have some lovely curriculum topics that the children will be learning about.

We will also be hoping to go on some trips in the summer term to support our learning.

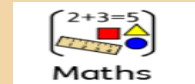

Literacy

Our first story text this term is **Peace at Last**. It is one of the children's favourite stories. The children can watch an adult from their class read the story on our school website.

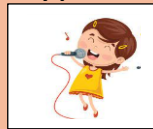

Maths

In maths, we are going to be continuing learning key mathematical skills. These include counting objects in a line, recognising numerals and relating numerals to amounts.

Curriculum

In music we will be listening to music from around the world. We will be exploring different tunes to discover the type of music that makes us feel happy.

As part of our Science we will be looking at plants that we can eat. Children will learn that there are plants that we enjoy eating. We will learn some of their names. The children will also grow a plant e.g. bean and observe the changes.

As part of our Computing topic this term, the children will be learning how to make devices move. They will learn how to operate and direct electric cars and bee-bots.
