

Being **resilient**

means

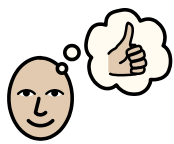

staying

calm

and

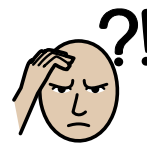

positive,

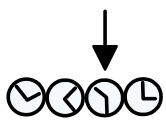

when

things are

hard.

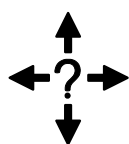

Sometimes

things

don't go

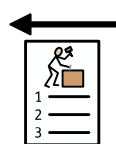

the

way

I

planned.

That's

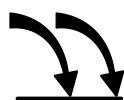

okay!

I can

try

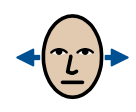

again.

Being **resilient**

means

not

giving

up.

I can

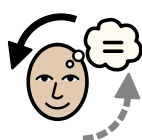

find

ways

to

solve

problems.

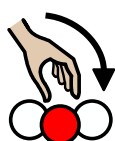

When

I

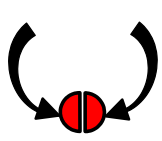

keep

trying

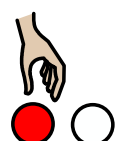

and

make

good

choices,

I

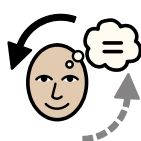

am being

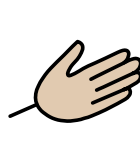

resilient.

Good

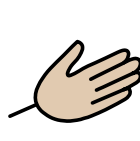

solutions

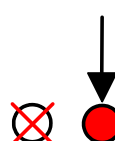

help

me,

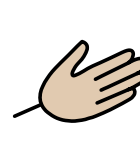

help

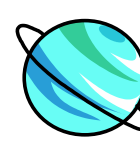

others,

and

help

the

planet

too.
