

Teacher: Jenni
Class Support: Becky and Karen

Year 10 Secondary Newsletter Autumn 2025

This year we will continue to work towards our Functional Skill qualifications.

We will be following a more mobile approach when accessing Maths, English, Science and IT lessons whereby we will move from one class to another. Alex will be our English Teacher, Jamie will teach Science and ICT and Jenni will teach Maths.

Class support staff will move with pupils to all classes.

PE:

PE will take place on Wednesday
afternoons.

This term we are looking at team work and further developing tactics for different sports.

Our subjects this term:

Vocational studies—Across the year pupils will be exploring both cooking and horticulture. This will alternate every term so pupils get the chance to see skills and abilities develop.

This term pupils will be learning to cook with Jenni, focusing on following a recipe and developing more independence when making food.

Social and Cultural studies—A combination of History, Geography and RE is focused on within this lesson, we are exploring the Norman Invasion, this is an exciting topic which allows us to link our prior learning about the Vikings, WW1 and WW2 to elements within the Battle of Hastings, the invasion and the battle to become King of England.

Creative Arts — We are very fortunate to have the lovely Neil teach our Art and Media lessons, all pupils last year gained their first qualification through Arts Award and we look forward to expanding this for them this year. The first topic of the year for pupils is Contemporary Art—this allows us quite a wide lens to explore this type of art in as we are very fortunate to be in a very progressive modern art period.

This year for both staff at Discovery and our Year 10 pupils the focus is all about growth, developing skills to help prepare them our pupils for adulthood and understanding the communities that are around us. This will be a very exciting year for us all.
